

Import DPI Files

LINQ

The screenshot shows the 'Import DPI Files' interface. At the top, there are two informational boxes: 'Import DPI Files' (describing the menu) and 'Help Files' (describing how to access step-by-step instructions). Below this is the main title bar 'Import DPI Files' with an information icon. The main area has a header 'Enter Budget Year:' with a field containing '2021'. To the right, a callout box explains the 'Budget Year' field. On the left, a callout box for 'DPI Files' instructs users to check boxes to select files. The central area lists five file types with checkboxes: 'Chart of Accounts' (checked), 'Allotment Carryover' (checked), 'Indirect Cost' (unchecked), 'Site' (unchecked), and 'Communication Log' (checked). At the bottom, a button labeled 'Import' is described in a callout box.

Import DPI Files
This menu lets you import any existing *DPI* files.

Help Files
Click the information icon to access step-by-step instructions for this particular menu.

Import DPI Files ⓘ

Enter Budget Year: 2021

Budget Year
Enter the year in the **Enter Budget Year** field.

DPI Files
Check the boxes to select the *DPI* files to be imported.

Import
Click this button to continue. A message will appear above the button when the files have imported successfully.
