Customer Release Notes

MEALS PLUS WEB FRONT OF HOUSE—SPRINT 24
JANUARY 13, 2020

This document describes enhancements and corrections for **Meals Plus Web.**

You can retrieve the latest available product documentation from the *Meals Plus* Customer Support website, https://support.mealsplus.com.

Meals Plus
A LINQ SOLUTION

New in this release
New Features

- o **NEW! The ability to sync *Meals Plus* Web with *VendNovation* has been added in Vending Setup under System Settings.**
  - **Vending Setup** will need to be enabled in **Administration: System Settings: User Role Access: Administration: Vending Setup** to use. *Meals Plus* **Support** will assist districts with initial set up.
    - Students and teachers will be able to use their **Account Balance** to purchase vending items.
    - Students and teachers can now receive the same reduced pricing based on their eligibility when making **Vending** purchases.
    - **Vending** transactions are recorded along with the rest of a site's **Point of Sale** data.

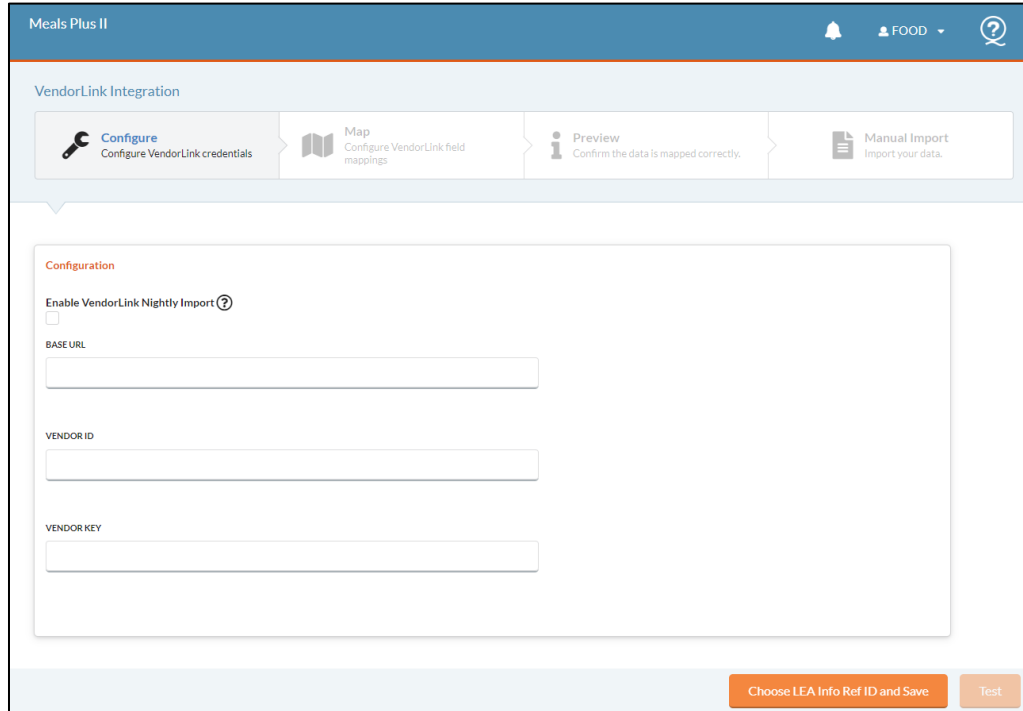

- o **NEW! VendorLink Integration is now available under Utilities: Import!**
  - **VendorLink Integration** will need to be enabled in **Administration: System Settings: User Role Access: Utilities: VendorLink Integration** to use.
  - Districts that use **VendorLink** will now be able to configure their **VendorLink Import** and **Map** their fields within *Meals Plus* to import students.
  - The ability has been added to view and import a single student, allowing districts to preview the results of the **VendorLink Import**.
    - This feature will assist districts in troubleshooting the import process and prevent the improper mapping of fields.

- The ability has been added to **Manually Sync** student data in **VendorLink**.
