- Customers can **View/Edit Ingredient** without leaving the report.
- Customers can sort by **User Defined** or **100 Grams Base Weight** as the serving measure.
 - Ingredients can have multiple serving measures and each serving measure will display on its own line. *Example: a user may have entered in green beans with a serving measure for (1) #10 can and also ½ cup.*
 - Missing nutrient data displays as N/A or *.
- Customers can filter by USDA, Local, NC alliance, or SC alliance sourced ingredients.
- Customers can opt to create a report only displaying items that are **Inventory Linked**.

Meals Plus Web Sprint 29 Customer Release Notes

- **NEW! The Simple Average report that lists the nutrient analysis of menu items based on their planned portions on the Applied Cycle Menu as a planning tool to help students select menu items that meet special dietetic needs has been added.**
 - The **Write** access box must be checked in **Administration: System Settings: User Role Access: Reports: Simple Average** to be able to view/use this report.

The screenshot shows the 'Simple Average' report parameters form. It includes the following fields and options:

- Report Parameters** (Section Header)
- FROM:** 04/01/2020
- TO:** 04/01/2020
- SITE:** ALL
- MEAL TYPE:** ALL
- CYCLE MENU:** (Empty dropdown)
- Reimbursable Items Only
- Include Allergy Report
- View** button

- It can also be used to review Menu Ingredients to verify that they have been entered correctly.
- The report can be run to include **Reimbursable Items Only**.
 - The report provides a per-meal, daily and weekly comparison (or any combination of these) to the standard.
 - Only the food items that have been marked as reimbursable will be included in the analysis.

Other Enhancements

Menus

Manage Ingredients

Create/Edit Ingredient

- A **Source of Nutrient Data** field has been added to the **Ingredient Info** section of the **Create/Edit Ingredient** form.
 - The field will not display on **USDA Ingredients**.

The screenshot shows the 'Create / Edit Ingredient' form. The 'INGREDIENT NAME' field contains 'Test Local Ingredients 2' and the 'SOURCE' dropdown is set to 'Local'. The 'SOURCE OF NUTRIENT DATA' field is highlighted with a red circle. Below the form, the 'Nutrition Facts' and 'Meal Component' sections are visible. The 'Nutrition Facts' section shows a table with fields for Base Weight, Calories, Total Fat, Saturated Fat, and Cholesterol. The 'Meal Component' section features a 'MyPlate' diagram and a 'Click to Verify' button.

Manage Menus

Cycle Menus

- **Nutrient Standards** will display the maximum on **Grains** and **M/MA** but if the quantity exceeds this amount, the menu will display the nutritional standards are being met with a green check mark.

Meals Plus Web Sprint 29 Customer Release Notes

Corrections

General

Meals Plus Web Log In
