Meals Plus Web Sprint 33 Customer Release Notes

- **Single Student Preview** has been added on the Preview Tab so customers can to preview information for a single student to ensure that fields have been mapped correctly on the **Map Tab**.

The screenshot shows the 'Aeries Integration' section of a web interface. It features a progress bar with four steps: 'Configuration' (Configure Aeries credentials), 'Map' (Configure Aeries field mappings), 'Preview' (Confirm the data is mapped correctly), and 'Manual Import' (Import your data). The 'Preview' step is currently active. Below the progress bar, the 'Single Student Preview' tab is highlighted with a red rounded rectangle. This tab contains two input fields: 'STUDENT ID' and 'SCHOOL CODE'.

- **Manual Import** has been added on the Manual Import Tab so customers can **Manually Sync** the student data.
 - Students marked as active in **Aeries** will be marked as active in **Meals Plus**.
 - Students that are already active in **Meals Plus** will be not be affected if they do not exist in **Aeries** when importing.

The screenshot shows the 'Manual Import' tab. It features a light blue box with the following text: 'Manual Import' followed by 'This will start importing your students by mapping their data according to the mapping configuration you chose. It may take a few minutes.'
