

Customer Release Notes

MEALS PLUS WEB SPRINT 38—AUGUST 26, 2020

This document describes enhancements and corrections for *Meals Plus Web* and **LunchApplication.com**

You can retrieve the latest available product documentation from the *Meals Plus* Customer Support website, <https://support.mealsplus.com>.

EMS LINQ, Inc.

2528 INDEPENDENCE BLVD., STE. 200 | WILMINGTON, NC 28412

Meals Plus Web Sprint 38 Customer Release Notes

New Features

- **NEW! A Review Duplicate Applications utility has been added to the Review Incoming Applications form to allow customers the ability to merge information from duplicate applications into a single application.**

The screenshot shows the 'Review Incoming Applications' interface. At the top, there are two buttons: 'Download Applications From LunchApplication.com' and 'Process Scanned Applications'. Below these is a 'Duplicate' dropdown menu with a refresh icon. The main area contains a table with columns: Last Name, First Name, Address 1, Address 2, City, State, Zip Code, Source, Application Date, and Ready. Two rows are visible, both for 'Smith, Christopher'. The first row has Address 1 '2528 Indepe...' and Application Date '7/7/2020 9:58:18 AM'. The second row has Address 1 '166 Raye Drive' and Application Date '7/2...'. A context menu is open over the first row, showing 'View All Apps' and 'Delete Application' options. At the bottom, there are navigation buttons: 'Previous', 'Page 1 of 1', '20 rows', and 'Next'.

- Select **Duplicate** from the dropdown list, and then select **View All Apps** from the  icon.

The screenshot shows the 'Review Duplicate Applications' interface. It features a 'Select Existing Application' section with a table. The table has columns: Last Name, First Name, Address 1, Address 2, City, State, Zip Code, and Application Date. One row is selected, showing 'Smith, Christopher' with Address 1 '2528 Independence Blvd', City 'NC', State 'NC', Zip Code '28412', and Application Date '08/03/2020'. At the bottom, there are navigation buttons: 'Previous', 'Page 1 of 1', '5 rows', and 'Next'. A 'Next' button is also located at the bottom right of the interface.

- Select an existing application from the **Existing Application** grid and click **Next**.

Meals Plus Web Sprint 38 Customer Release Notes

- The **Review Duplicate Applications** utility will display three (3) new application sections:
 - **Existing Application**
 - **Incoming Application**
 - **Resulting Application**

Review Duplicate Applications

Existing Application

Back Create New Application Continue

- Customers will be able to individually select the applications from the **Existing** and **Incoming Applications** section, and the merged information will automatically be added to the **Resulting Application** section.
 - Once in the **Resulting Application** section, customers will be able to edit the information on the application (i.e. HoH, Student, Member, etc.).

Meals Plus Web Sprint 38 Customer Release Notes

- Customers will then be able to create a **New Application** with the updated information.
 - Creating the new application will remove the application(s) from the **Incoming Application** grid.
- **NEW! In order to meet state requirements and audit standards, the following columns have been added to the Production Record under Menus: Manage Production:**
 - **Recipe ID**
 - **Units for 100 Servings**
 - **Pre-K Planned** section
 - **Pre-K Offered** section
 - **Pre-K Served** section
 - **Serving Line #**
