Meals Plus Web Sprint 45 Customer Release Notes

Enhancements

Menus

Manage Ingredients

- The **Inactive Only** toggle will now display only **Inactive** ingredients in the grid.
 - The toggle would previously show both **Active** and **Inactive** ingredients in the same grid, with **Inactive** ingredients displayed in a different font color.
- **Column Visibility**
 - **Additional Veg.** is now a column option so you can filter/sort ingredients in the grid.

Manage Recipes

- The **Inactive Only** toggle will now display only **Inactive** ingredients in the grid.
 - The toggle would previously show both **Active** and **Inactive** ingredients in the same grid, with **Inactive** ingredients displayed in a different font color.
- **Add / Edit Recipe**
 - In the **Ingredients** section, you can now re-order ingredients in a recipe using the new up and down arrows.

Meals Plus Web Sprint 45 Customer Release Notes

- A **Vegetables** subgroup has been added to the **Meal Component** section to track vegetables and meet USDA regulations.

The screenshot shows the 'Meal Component' form. At the top, there is a MyPlate diagram with sections for Fruits, Grains, Dairy, Vegetables, and Protein. Below the diagram is the text 'Choose MyPlate.gov' and an orange button labeled 'Click to Verify'. The form contains several input fields:

Serving Size Weight	34.019	grams
Meat/Meat Alt.		oz eq.
Whole Grain - Rich		oz eq.
Enriched Grain		oz eq.
<input type="checkbox"/> Grain Based Dessert		
Vegetables		cups
Dark Green		cups
Red/Orange		cups
Beans/Peas		cups
Starchy		cups

Manage Menus

- **Cycle Menus**
 - The **Additional Vegetable** subgroup has been added to the **Meal Standards** to meet USDA regulations.
- **Analysis Report**
 - **Weekly Fruit** and **Vegetable** percentages will now be calculated using the approved USDA formula.
 - **Meal Component** values will display with three decimal places to adhere to USDA compliance regulations.
 - The **Additional Vegetable** subgroup has been added to the USDA Nutrient Analysis report to meet USDA regulations.

Reports Menus

- **Food Based Analysis**
 - The **Additional Vegetable** subgroup has been added to the report.
 - The **Additional Vegetable** values will be included when calculating the **Total Vegetable** sum.

Meals Plus Web Sprint 45 Customer Release Notes

- The **Daily Saturated Fat** calculation will now be displayed on the report as a percent.
 - This calculation will match the calculation used on the **Analysis Report**.
- **Recipe Preparation**
 - The **Additional Vegetable** subgroup has been added to the report and will appear on all variations of the report.

Utilities

Menus

- **Import Ingredients**
 - You can now import **Additional Vegetable** data to track vegetables and meet USDA regulations.

Corrections

Manage Recipes

- **Add / Edit Recipe**
 - When modifying the number of servings in a recipe, the **Nutrition Facts** and **Meal Components** will now update on the screen before saving the recipe.

Manage Menus

- **Cycle Menus**
 - The error causing **Fruit** and **Vegetable Totals** to display incorrectly has been resolved.
 - The error causing the **Daily Meat/Meat Alt.** values to not calculate as expected has been corrected.
